Dear Phyllis:

Congratulations on the Commemoration of the Venice Japanese American Memorial Monument. The monument is a beautiful and important structure that marks the forced removal of people of Japanese descent from the Venice, Santa Monica, and Malibu areas during World War II. We understand how important it is that the tragic history of concentration camps be remembered so that it may never be repeated.

You have my express permission to list the Japanese American National Museum as a supporter of the monument. It was an honor and a privilege to represent JANM at the Commemoration on April 18. We are proud supporters of the monument and all that it stands for.

Sincerely,

Ann Burroughs
President and CEO
